Section 00700 - Contract Clauses

#### CLAUSES INCORPORATED BY FULL TEXT

#### 52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within 10 calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than forty-five (45) calendar days after receipt of the Notice to Proceed. An additional twenty (20) calendar days will be added for completion of Option Dredging and an additional seven (7) calendar days will be added for completion of the Option Earthwork. The time stated for completion shall include final cleanup of the premises.

(End of clause)

#### 52.211-12 LIQUIDATED DAMAGES -- CONSTRUCTION (SEP 2000)

- (a) If the Contractor fails to complete the work within the time specified in the contract, the Contractor shall pay liquidated damages to the Government in the amount of \$722.00 for each calendar day of delay until the work is completed or accepted.
- (b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to exc ess costs of repurchase under the Termination clause.

(End of clause)

52.211-5001 VARIATIONS IN ESTIMATED QUANTITIES, SUBDIVIDED ITEMS (MAR 1995)--EFARS

This variation in estimated quantities clause is applicable only to Items Nos.\_0002 and 0003.

- (a) Variation from the estimated quantity in the actual work performed under any second or subsequent sub-item or elimination of all work under such a second or subsequent sub-item will not be the basis for an adjustment in contract unit price.
- (b) Where the actual quantity of work performed for Items Nos. 0002 and 0003 is less than 85% of the quantity of the first sub-item listed under such item, the contractor will be paid at the contract unit price for that sub-item for the actual quantity of work performed and, in addition, an equitable adjustment shall be made in accordance with the clause FAR 52.212-11, Variation in Estimated Quantities.
- (c) If the actual quantity of work performed under Items Nos. 0002 and 0003 exceeds 115% or is less than 85% of the total estimated quantity of the subitem under that item and/or if the quantity of the work performed under the second sub-item or any subsequent sub-item under Items Nos. 0002 and 0003 exceeds 115% or is less than 85% of the estimated quantity of any such subitem, and if such variation causes an increase or a decrease in the time required for performance of this contract the contract completion time will be

adjusted in accordance with the clause FAR 52.212-11, Variation in Estimated Quantities.

# CLAUSES INCORPORATED BY FULL TEXT

52.231-5000 EQUIPMENT OWNERSHIP AND OPERATING EXPENSE SCHEDULE MAR 1995)--EFARS

- (a) This clause does not apply to terminations. See 52.249-5000, Basis for Settlement of Proposals and FAR Part 49.
- (b) Allowable cost for construction and marine plant and equipment in sound workable condition owned or controlled and furnished by a contractor or subcontractor at any tier shall be based on actual cost data for each piece of equipment or groups of similar serial and series for which the Government can determine both ownership and operating costs from the contractor's accounting records. When both ownership and operating costs cannot be determined for any piece of equipment or groups of similar serial or series equipment from the contractor's accounting records, costs for that equipment shall be based upon the applicable provisions of EP 1110-1-8, Construction Equipment Ownership and Operating Expense Schedule, Region II. Working conditions shall be considered to be average for determining equipment rates using the schedule unless specified otherwise by the contracting officer. For equipment not included in the schedule, rates for comparable pieces of equipment may be used or a rate may be developed using the formula provided in the schedule. For forward pricing, the schedule in effect at the time of negotiations shall apply. For retroactive pricing, the schedule in effect at the time the work was performed shall apply.
- (c) Equipment rental costs are allowable, subject to the provisions of FAR 31.105(d)(ii) and FAR 31.205-36. Rates for equipment rented from an organization under common control, lease-purchase arrangements, and sale-leaseback arrangements, will be determined using the schedule, except that actual rates will be used for equipment leased from an organization under common control that has an established practice of leasing the same or similar equipment to unaffiliated lessees.
- (d) When actual equipment costs are proposed and the total amount of the pricing action exceeds the small purchase threshold, the contracting officer shall request the contractor to submit either certified cost or pricing data, or partial/limited data, as appropriate. The data shall be submitted on Standard Form 1411, Contract Pricing Proposal Cover Sheet.

(End of clause)

Security Contract Language for all Corps of Engineers' Unclassified Contracts (PIL 2003-06, 19 Feb 03)

All Contractor employees (U.S. citizens and Non- U.S. citizens) working under this contract (to include grants, cooperative agreements and task orders) who require access to Automated Information Systems (AIS), (stand alone computers, network computers/systems, e-mail) shall, at a minimum, be designated into an ADP-III position (non-sensitive) in accordance with DoD 5220-22-R, Industrial Security Regulation. The investigative requirements for an ADP-III position are a favorable National Agency Check (NAC), SF-85P, Public Trust Position. The contractor shall have each applicable employee complete a SF-85P and submit to the USACE Detroit District Security Officer within three (3) working days after award of any contract or task order, and shall be submitted prior to the individual being permitted access to an AIS. Contractors that have a commercial or government entity (CAGE) Code and Facility Security Clearance through the Defense Security Service shall process the NACs and forward visit requests/results of NAC to the Detroit District Security Officer. For those contractors that do not have a CAGE Code or Facility Security Clearance, the Detroit District Security Office will process the investigation in coordination with the Contractor and contract employees.

In accordance with Engineering Regulation, ER 380-1-18, Section 4, foreign nationals who work on Corps of Engineers' contracts or task orders shall be approved by the HQUSACE Foreign Disclosure Officer or higher before beginning work on the contract/task order. This regulation includes subcontractor employees. (NOTE: exceptions to the above requirement include foreign nationals who perform janitorial and/or ground maintenance services.) The contractor shall submit to the Division/District Contract Office, the names of all foreign nationals proposed for performance under this contract/task order, along with documentation to verify that he/she was legally admitted into the United States and has authority to work and/or go to school in the US. Such documentation may include a US passport, Certificate of US citizenship (INS Form N-560 or N-561), Certificate of Naturalization (INS Form N-550 or N-570), foreign passport with I-551 stamp or attached INS Form I-94 indicating employment authorization, Alien Registration Receipt Card with photograph (INS Form I-151 or I-551), Temporary Resident Card (INS Form I-688), Employment Authorization Card (INS Form I-688A), Reentry Permit (INS Form I-327), Refugee Travel Document (INS Form I-571), Employment Authorization Document issued by the INS which contains a photograph (INS Form I-688B).

Classified contracts require the issuance of a DD Form 254 (Department of Defense Contract Security Classification Specification).

(End of Clause)

# SCOPE OF WORK

# SCOPE OF WORK:

1. Mobilize dredge to the Sebewaing river and dredge between sta. 0+00 and sta. 148+00 to a channel width of 35' and depth of 5' below L.W.D. The option dredging is to dredge between the same stations to a channel width of 50' and depth of 5' below L.W.D.

The earthwork option consists of raising the perimeter dikes of the south placement facility 3' above the existing elevation to provide additional capacity to place the option dredging. The Contractor shall provide the necessary equipment and labor to excavate the existing material within the south placement facility, place and compact. Existing trees and vegetation within the south placement facility shall be segregated from the material used for raising the perimeter dikes.

A Government Furnished offload site is shown on the plans. The Contractor is responsible for maintaining the offload site and haul roads. The Contractor shall document the condition of the offload site and transfer route prior to use and restore the offload site and transfer route to the condition prior to use at no additional cost to the

Government. Transport the dredged material using the required transfer route to the south placement facility and place the dredged materials within the south placement facility shown on the plans. If a pipeline is used the Contractor shall route the pipeline through the culvert under the paved taxiway and west of the grass runway, approximately 4000', to the south placement facility.

The contractor shall pump the excess water from the south placement facility to the north placement facility for discharge from the existing weir. The Contractor shall provide and maintain weir boards to retain water within the north facility to allow settlement of the suspended solids. The discharge shall not have any unnatural physical properties in quantities which are or may become injurious to any designated uses. Any unusual characteristics of the discharge (unnatural turbidity, color, oil film, floating solids, foams, settleable solids, suspended solids or deposits in the Saginaw Bay) shall be reported immediately to the COR. The COR may require changing or suspension of discharge operations until the water quality is deemed suitable for discharge at no additional charge to the Government

Discharges from the Dredge Material Placement Facility (DMPF) shall be sampled and tested for the parameters listed below by the Contractor at the discharge point of the north placement facility to Saginaw Bay consistent with the following conditions.

Parameter Sample Frequency/Type
During Discharge Periods

Total Suspended Solids NTE 100 PPM Daily Grab Sample
Turbidity Daily Grab Sample
Color Daily Grab Sample
Total Phosphorus --- Weekly Grab Sample
Outfall Observation --- Daily Inspection

At a location within the Saginaw Bay uninfluenced by the effluent from the DMPF or the dredging operations in the Sebewaing Navigational Channel, the Contractor shall collect and test weekly grab samples for total suspended solids, turbidity, and color. These samples should be collected as close as feasible to the same time as the effluent samples collected from the DMPF. Test results shall be provided weekly to the COR. Sampling times and testing procedures shall be coordinated with Pam Horner, (313) 226-6748.

The Contractor shall take necessary precautionary measures to ensure the dredged material and associated water remains within the limits of placement. The Contractor shall not disturb the wetlands adjacent to the north placement facility. See specifications for requirements of dredging, transfer, conveyance and placement. Demobilize when dredging work is completed.

2. The work for this Task Order shall conform to the contract specifications, this scope of work and the drawings identified on the following index:

**Contract Drawings**

- 3. The survey information shown on the drawings is based on condition soundings collected on the dates indicated on the plans. Final pay yardage will be determined by prior to dredging soundings and after dredging soundings. See specifications.
- 4. Performance Schedule: The Contractor shall be required to (a) commence work under this contract within 10 calendar days after the date the Contractor receives the Notice to Proceed (NTP), (b) prosecute the work diligently, and (c) complete the entire work ready for use within forty-five (45) days.

An additional twenty (20) days will be added for completion of Option Dredging and an additional seven (7) days will be added for the completion of Option Earthwork.

5. The overdepth and side slope quantities for this Task Order are as follows:

	Overdepth (	<u>Sideslope</u>
Required Dredge Area	11,000 cy	750 cy
Option Dredge Area	7,000 cy	750 cy

#### 6. Character of Materials

Sebewaing: "The material within the required dredging prism consists primarily of material that has shoaled since the last time the area was dredged. Shoaled material contains silt and sand in varying proportions with trace amounts of gravel. The contractor may encounter native material within the overdepth prism, consisting of loose to hard clayey silt and gravel.".

The records of previous dredging and sampling are available for inspection at the Engineering, Design & Construction Office, U.S. Army Corps of Engineers, Detroit District, 477 Michigan Avenue, McNamara Building, Detroit, Michigan, 48226.

# 7. Tolerance Dimensions:

Shoal Tolerance: 0.5 feet vertical

Allowable pay overdepth 1.0'

- 8. Special Project Procedures:
- a. State of Michigan Allowed and Prohibited Dredging

During the following periods of the year dredging is allowed:

<u>Harbor</u> Sebewaing River, MI.

# Allowed Periods 01 July through 31 March

- b. Work is allowed on nights and weekends.
- 9. Bench Mark and horizontal control data for work under this Task Order will be provided by the Detroit Area Office.

# CONTRACTOR SHALL PROVIDE THE FOLLOWING INFORMATION IN CONJUNCTION WITH THIS PROPOSAL:

Location/Type/Kind of Equipment proposed: <u>Lake Superior</u> Time to mobilize equipment to Location/Area: <u>Three (3) weeks</u> Production Capability of Equipment: <u>600-1400</u> cubic yards/day

# **HEALTH & SAFETY**

HEALTH AND SAFETY STANDARDS: The facilities, systems and equipment design standards of the occupational Safety and Health Act, Code of Federal Regulations, Title 29, Chapter XVII, Parts 1910 and 1926, or EM 385-1-1 03 NOV 03, U.S. Army Corps of Engineers, Safety and Health Requirements Manual, whichever is more stringent, will be incorporated into all Engineering, Design and Analysis furnished, pursuant to this contract. Any problem in incorporating these standards due to conflicts with other technical criteria will be promptly submitted to the Contracting Officer for decision. Contractor shall abide by the Safety Requirements specified EM 385-1-1.

# U.S. ARMY CORPS OF ENGINEERS SAFETY AND HEALTH REQUIREMENTS MANUAL, EM 385-1-1 03 November 2003:

This paragraph applies to contracts and purchase orders that require the contractor to comply with EM 385-1-1 (e.g., contracts that include the Accident Prevention Clause at FAR 52.236-16 and/or other safety provision s). EM 385-1-1 and its changes are available at <a href="http://www.hq.usace.army">http://www.hq.usace.army</a> (at the HQ Homepage select Safety and Occupational Health). The contractor shall be responsible for complying with the current edition and all changes posted on the web as of the effective date of this solicitation.

Contract Clause for Dredging and Dredge Related Marine Work

"The Contractor shall with the provisions of EM385-1-1. If the Contractor is currently accepted participant in the Dredging Contractors of America (DCA/United States Army Corps of Engineers (USACE) Dredging Safety Management Program (DSMP), as determined by the DCA/USACE Joint Committee, and holds a current valid Certificate of Compliance for both the Contractor Program and

the Dredge(s) to be used to perform the work required under this contract, the Contractor may, in lieu of the submission of an Accident Prevention Plan (APP).

- (1) make available for review, upon request, the Contractor's current Safety Management System (SMS) documentation.
- (2) submit to the Contracting Officer the current valid Company Certificate of Compliance for its SMS,
- (3) submit the current dredge(s) Certificate of Compliance based on third party audit, and
- (4) submit for review and acceptance, site-specific addends to the SMS as specified in the solicitation.

(End)

# **TIME EXTENSION**

52.236-4020 TIME EXTENSIONS FOR UNUSUALLY SEVERE WEATHER (31 OCT 89) (ER 415-1-15)

- a. This provision specifies the procedure for the determination of time extensions for unusually severe weather I accordance with the CONTRACT CLAUSE entitled "DEFAULT (FIXED-PRICE CONSTRUCTION)." In order for the Contracting Officer to award a time extension under this clause, the following conditions must be satisfied: (1) The weather experienced at the project site during the contract period must be found to be unusually severe, that is, more severe than the adverse weather anticipated for the project location during any given month. (2) The unusually severe weather must actually cause a delay to the completion of the project. The delay must be beyond the control and without the fault or negligence of the contractor.
- b. The following schedule of monthly anticipated adverse weather delays is based on National Oceanic and Atmospheric Administration (NOAA) or similar data for the project location and will constitute the base line for monthly weather time evaluations. The contractor's progress schedule must reflect these anticipated adverse weather delays in all weather dependent activities.

# MONTHLY ANTICIPATED ADVERSE WEATHER DELAY WORK DAYS BASED ON (7) DAY WORK WEEK

JAN	FEB	MAR	APR	MAY	JUN	
(31)	(29)	(31)	(30)	(9)	(7)	
JUL	AUG	SEP	OCT	NOV	DE	C

(6) (6) (6) (8) (31)

c. Upon acknowledgement of the Notice to Proceed (NTP) and continuing throughout the contract, the Contractor will record on the daily CQC Report, the occurrence of adverse weather and resultant impact to normally scheduled work. Actual adverse weather delay days must prevent work on critical activities for fifty percent (50%) or more of the contractor's scheduled workday. The number of actual adverse weather delay days shall include days impacted by actual adverse weather (even if adverse weather occurred in previous month), be calculated chronologically from the first to the last day of each month, and be recorded as full days. If the number of actual adverse weather days exceeds the number of days anticipated in Subparagraph (b) above, the Contracting Officer will convert any qualifying delays to calendar days, giving full consideration for equivalent fair weather work days, and issue a modification in accordance with the CONTRACT CLAUSE entitled "DEFAULT (FIXED PRICE CONSTRUCTION)".

(END OF CLAUSE)

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

\_\_\_\_\_\_

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

\_\_\_\_\_

### WAGE DETERMINATION APPEALS PROCESS

- 1.) Has there been an initial decision in the matter? This can be:
- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations Wage and Hour Division U.S. Department of Labor 200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

- \*Level D 0.50 per hour

Such wages shall be above the classifications of work listed under mechanical dredging and Marine construction of this general wage decision. \*Working with Hazardous Waste at this level as defined by the U. S. Environmental Protection Agency.

### CLASSIFICATION DESCRIPTIONS

Class I - Master Mechanic - assist and direct

Class II, Class III, and Class IV, diver/wet tender, engineer (hydraulic dredge)

Class II - Crane/Backhoe Operator and Mechanic/Welder, assistant engineer(hydraulic dredge), leverman (hydraulic dredge), diver tender

Class III - Deck Equipment Operator (Machineryman) Maintenance of Crane (over 50 ton capacity) or Backhoe (115,000 pounds or more), Tug/launch operator, Loader/dozer and like equipment on Barge, breakwater wall, slip/dock, Scow, Deck Machinery, etc.

Class IV - Deck Equipment Operator(Machineryman/Fireman) (Four equipment units or more) Deck Hand, Deck Engineer and Crane Maintenance 50 ton capacity and under or Backhoe weighing 115,000 pounds or less, assistant tug operator.

-----

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively

bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

## WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations Wage and Hour Division U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board U.S. Department of Labor 200 Constitution Avenue, N.W. Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION
